

## USED Clamshell Dredge FOR SALE

**October 9, 2009:** This Luffing Jib Clamshell Dredge, originally constructed in the 80's, has been completely remodeled during the early 90's. All drive mechanisms, processing equipment and electrical components have been upgraded. The only original equipment on this luffing jib style clamshell are the pontoons and jib which were sand blasted and painted during the 90's remodel. This one of a kind dredge would be a perfect match for a small-to-mid sized sand and gravel operation looking to take advantage of the benefits of a clamshell at a bargain price. In addition to the dredge, Floating Conveyor (24" x 585') and 15 CY Dump Barge are included with the purchase.
